

Company Update, Keynote GIUA 2011

Olaf Laber, Director Business Development

INGRES

Ingres Company Update

- Nearly 500 new Enterprise customers using Ingres RDBMS
- 10% new OpenROAD users.
- Released Ingres 10, which is the most significant technology update in our history.
- Released Ingres VectorWise, now the world's fastest, most affordable analytics database.
- Exceeded our financial goals and further strengthened our robust balance sheet position.

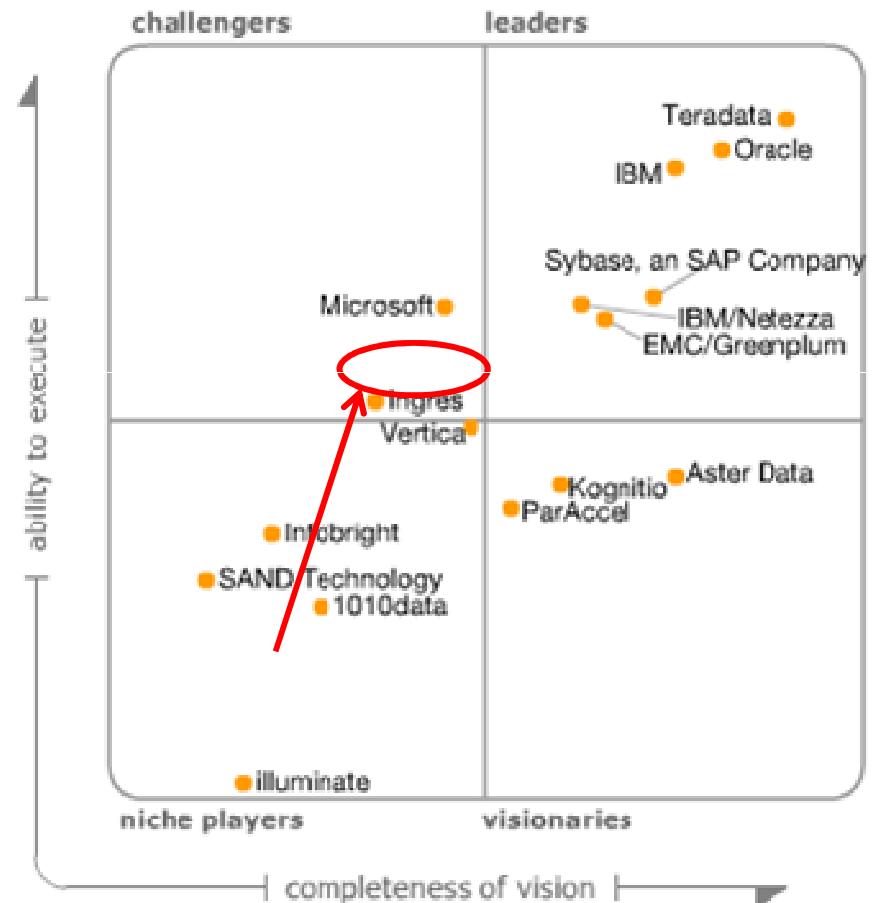

Ingres Company Update

With the successful launch of Ingres 10 and VectorWise, we embarked upon a new phase in the company's strategy.

More coming Soon!

Gartner Group positioned Ingres in the Challenger quadrant for Data Warehousing, recognizing both the Ingres RDBMS and Ingres VectorWise.

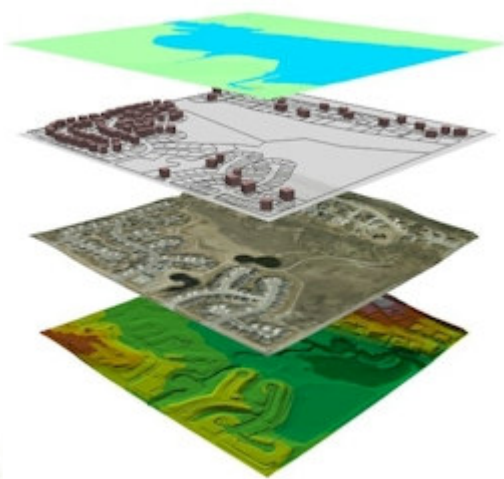

As of January 2011

Ingres RDBMS

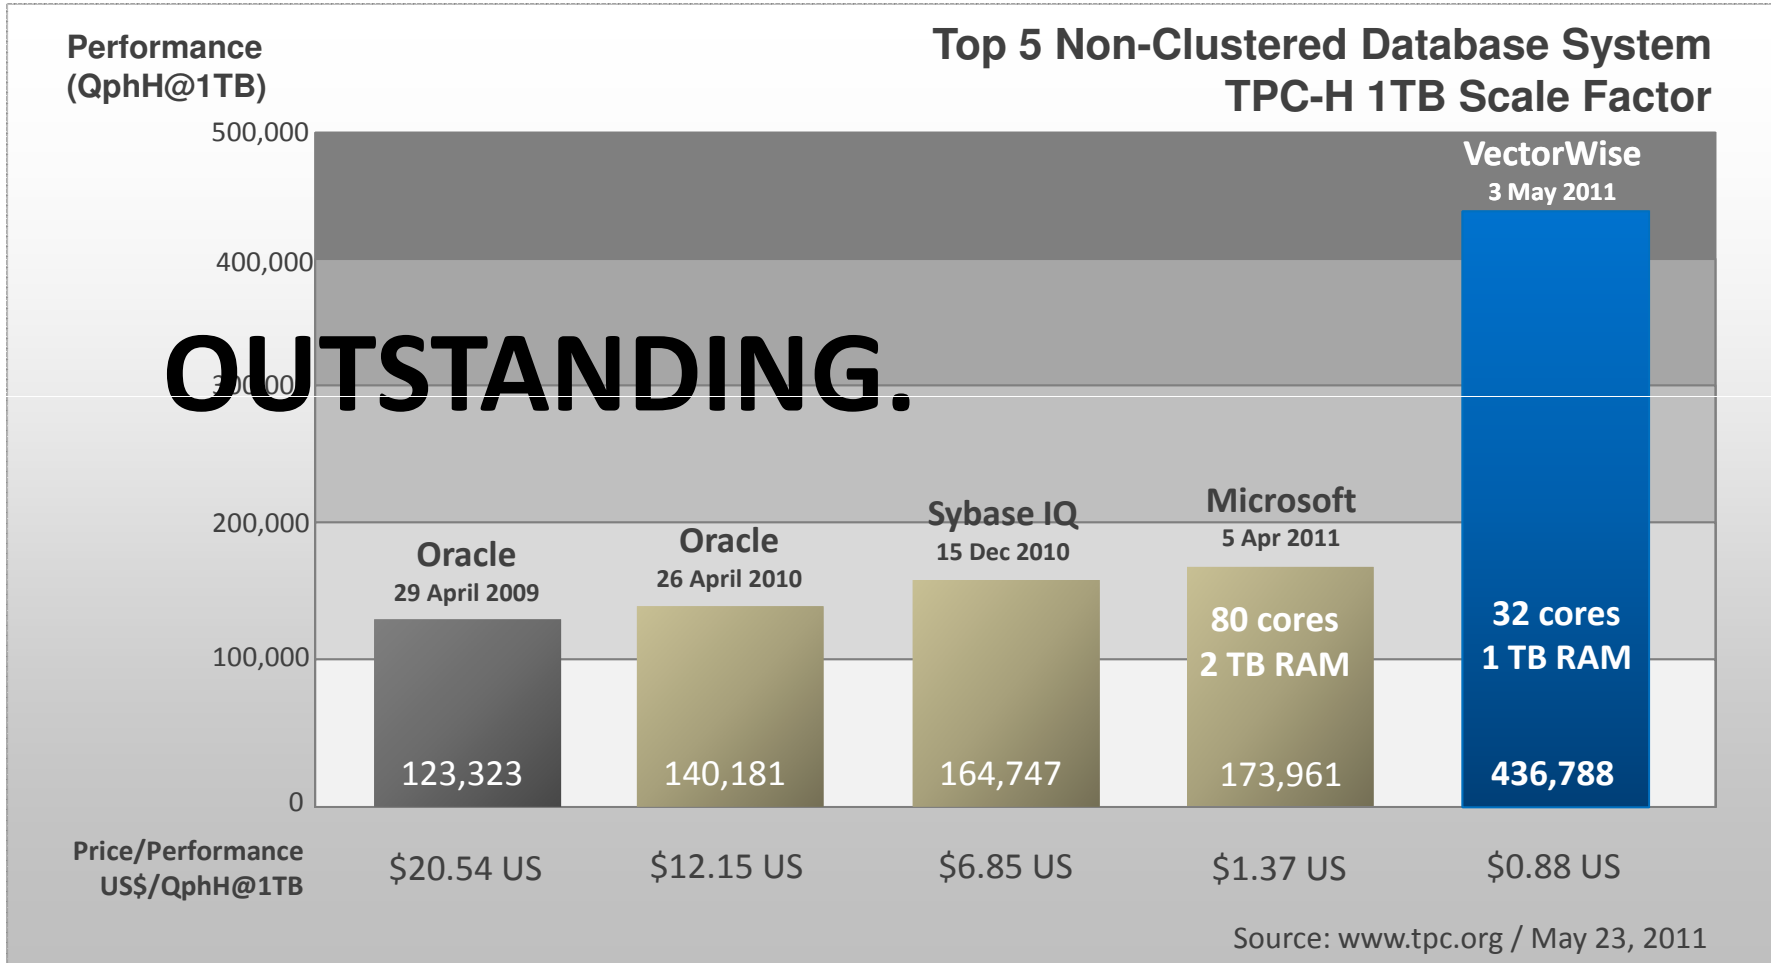

- 70% of our customers using version 9.x of Ingres or intend to move to this version.
- Early adopters of version 10, which delivers many long awaited feature and enhancement requests from you, our customers.
- Version 10 is a significant release that puts us well ahead of most of your requested needs for an OLTP database.
- Ingres is the most cost effective, functionally capable, business critical OLTP DBMS, granting you choice of independence when you plan your IT investment strategies.
- New Geospacial Funktionalitiy coming soon

Ingres OpenROAD

- We already are seeing much activity around OpenROAD this year.
- OpenROAD 5.1, the XML release
- OpenROAD 6 will provide transparent Unicode support. It is being tested by a number of partners who are expanding into Asia and should quickly follow the OpenROAD 5.1 release.

Ingres VectorWise

Ingres in the Cloud

You will hear details in my afternoon Presentation

... and if you think we lost motivation...

The two Banks survived run INGRES!

In the meanwhile,

Watch out for **INGRES** there will be hot news.

and rest assured that your business systems—both today and in the future—are in safe hands.

AND

Warm Greetings from Steve Shine our CEO and President

Thank you for your continuing support.

Greater Innovation

Reduced Costs
